Profile

Cybersecurity / Software Engineer with over 4 years of experience in cloud security and IAM (Identity and Access Management) across AWS, GCP, and Azure. Strong background in security automation, API development, and cloud access workflows. Experience working in large-scale fintech and e-commerce environments in Latin America. Currently based in New Zealand on a Student Visa (part-time work rights).

Core Skills

- Cloud Security & IAM (AWS, GCP, Azure)
 - Backend Development: Python, Flask, Node.js
 - Infrastructure & DevOps: Terraform, Docker, GitHub Actions
 - Cloud Services: Lambda, DynamoDB, API Gateway, IAM, BigQuery
 - Automation & APIs
 - Agile: Scrum, Kanban
 - Languages: Spanish (Native), English (B2)
-

Experience

Mercado Libre – Argentina

Leading e-commerce and fintech company in Latin America, operating at massive scale.

Cybersecurity Engineer | Sep 2022 – Oct 2025

- IAM technical representative for multi-cloud environments (AWS, GCP, Azure).
- Designed and maintained APIs and automations for cloud access management.
- Integrated LLMs to analyze internal permission requests, improving security reviews and response quality.
- Reduced automation failure rates from ~50% to near zero, significantly improving operational efficiency.

- Implemented secure, temporary credential delivery mechanisms replacing long-lived secrets.
- Built cross-account IAM solutions using AWS native services (Lambda, CloudFormation, EventBridge).
- Identified and remediated security issues in PCI-compliant AWS environments.

Naranja X – Argentina

Major Argentine fintech company providing digital payments and financial services.

Junior IAM Security Engineer | Jul 2021 – Sep 2022

- Managed IAM for on-premise and cloud environments.
- Participated in audits and security reviews.
- Developed an internal IAM management tool (React + Node.js).
- Delivered security awareness sessions for new employees (phishing, credentials, best practices).

CIEFAP – Argentina

Patagonian research center dedicated to the sustainable management of forest resources and technological innovation in Andean ecosystems.

Technical Support | Aug 2016 – Jan 2017

- Hardware maintenance and repair.
- User support and basic server administration.

Education

Full Stack Developer (Node.js) – Educación IT | 2021

Telecommunications Technician – ISSD | 2017 – 2021

Additional Information

- Experience working in high-impact, regulated environments (fintech, PCI).
- Strong focus on automation, security, and scalability.
- Comfortable collaborating with distributed and cross-functional teams.
