Summary

Semi-Senior Software Engineer with 4+ years of experience in high-scale production environments (Mercado Libre, +120k employees). AWS Certified AI Practitioner specializing in Agentic workflows, LLM API deployment, and RAG pipelines. Proven track record of building secure, autonomous AI solutions that improve operational efficiency by 67%. Expert in Python, AWS Lambda, and Docker, with a focus on translating complex technical requirements into scalable AI-driven tools

Core Skills

AI and LLMs	LLM APIs (OpenAI), Agentic Workflows (Routing), RAG Pipelines, Claude Code
Backend Development	Python, Flask, FastAPI
Database	MySQL, DynamoDB
Infrastructure and DevOps	Terraform, Docker, GitHub Actions
Cloud Services	S3, Lambda, EventBridge, CloudFormation, API Gateway, IAM, BigQuery, and more.
Agile Methodologies	Kanban, Scrum
Languages	Spanish (Native), English (B2 / Upper-Intermediate)

Certifications

AWS Certified AI Practitioner AMAZON WEB SERVICES (AWS)	<i>New Zealand</i> Issued Mar 2026
Claude Code in Action ANTHROPIC	<i>New Zealand</i> Issued Jan 2026
AWS Security Best Practices AMAZON WEB SERVICES (AWS)	<i>Argentina</i> Issued Aug 2024

Experience

Mercado Libre CYBER SECURITY ENGINEER	<i>Argentina</i> September 2022 - October 2025
- Designed and deployed an Agentic workflow using LLMs to autonomously analyze internal cloud permission requests, identifying critical actions and generating context-aware follow-up questions. - Improve automation reliability, reducing failure rates from 50% to near-zero, leading to a 67% improvement in agent response efficiency. - Responsible for reviewing and approving pull requests, ensuring best development practices, and maintaining code quality. - Write comprehensive API documentation, ensuring clarity and ease of use for internal teams. - Enhance credential security by replacing permanently visible credentials with temporary, one-time-view secure links, providing controlled access within a specified time frame. - Build a cross-account role management solution using native AWS services including CloudFormation, Lambda, S3, and EventBridge.	
Naranja X IAM SECURITY ENGINEER JR	<i>Argentina</i> July, 2021 - September, 2022
- Managed access control for both on-premises and cloud environments, ensuring compliance with security policies. - Perform audit documentation and security reviews to maintain IAM integrity. - Provide cybersecurity talks to new employees. - Development of an internal tool for IAM management, working on both front-end (React) and back-end (Node.js) development.	

Education

Telecommunications Technician INSTITUTO SUPERIOR SANTO DOMINGO (ISSD)	<i>Argentina</i> 2017 - 2021
Computer Technician COLEGIO N° 713 JUAN ABDALA CHAYEP	<i>Argentina</i> 2010 - 2015
